John -

Thanks for your patience. EPA received the data for the recent groundwater monitoring event, however some of the data is being validated.

I am forwarding the data anyway with the unvalidated data at the top portion of the attached excel spreadsheet and the validated data shown on the bottom portion of the spreadsheet. EPA is also evaluating the recommendations made in the 4th Quarter groundwater monitoring report and will provide comments in the next week or so.

Thanks again and please call or e-mail if there are questions or concerns.
